To whom it may concern

I am writing this letter to support Maya Wright in her application for the Master in Real Estate at the University of Reading.

I got to know Maya as my third-year project student, supervising her dissertation. Together we designed, carried out and assessed an online experimental study investigating Behavioral Trust toward outgroup members. Because we worked together intensely I got to know Maya quite well.

Maya picked this topic because of her interest in factors that influence positive behaviors towards outgroups and programmed the online experiment independently. She showed diligence in her work and implemented feedback thoroughly to achieve her best work. She accomplished a final mark of 2.1. It was a pleasure to work with her on this project.

I have full confidence that she would succeed in the Real Estate Master program and hereby recommend her without hesitation for this academic program.

A handwritten signature in black ink, appearing to read "Rebecca Weil".
